

# T-Ball Field Prep & Take Down

**The HOME teams will be responsible for setting up their own field.**

The equipment needed for setting up will be in the equipment room - first door on the left after entering the concession stand.

**Field #1 (infield)** you will need to grab 2 bags of helmets, 1 tee, 3 t-ball balls (these may be in the bag with the helmets), and 1 foot mat.

Put 1 bag of helmets in each dugout, the T on home plate with 1 ball. Place the foot mat in the batter's box.

**Field #2 (left field)** you will need to grab 2 bags of helmets, 1 tee, 3 t-ball balls (these may be in the bag with the helmets), 1 foot mat, and 3 portable bases.

Hang the bag of helmets on the fence near the field entrance. Place the tee with 1 ball 15-20 feet inside the fence away from the entrance to the field. Place the foot mat in the batter's box. For 1st base you will need to pace off 45 feet parallel with the fence line from the tee. Pace 45 feet for 2nd base and also for 3rd. Third baseline should run parallel with the fence.

**The AWAY teams will be responsible for taking down their field.**

**Field #1** grab 2 bags of helmets out of the 2 dugouts, the tee off of home plate, any t-ball balls, and the 1 foot mat.

**Field #2** grab the 1 bag of helmets off the fence, the tee, place the 3 t-ball balls, the 1 foot mat, and the 3 portable bases in the clear tote.

Once you have gathered all of the equipment take it to the concession stand to be (NEATLY) put away. All of the equipment will go in the equipment room. That room is the 1st door on your left after you enter the concession stand. PLEASE hang the helmets up on the rack, place the tee on the floor under the rack, and place the foot mat on the floor in the opposite corner.
